- **Safety Management System Software**, web based application.
- **Respiratory Fit Testing**, qualitative fit test (QLFT) and quantitative fit test (QNFT)
- **Safety Sign Survey**

Client Base

Our client base ranges from Ireland's leading private sector organisations to several Governmental departments throughout Ireland. Our team of consultants and trainers work every day in Irish industry advising and helping clients in all aspects of health and safety.

Anderco has expertise in all areas of risk management and occupational health and safety. For all projects, the broad range of expertise and knowledge is drawn together to ensure that all aspects of the project can be successfully completed.

Quality Assurance

Anderco operates to the highest standards of quality and the company is accredited to the quality management standard of ISO 9001:2008. As part of our system we have comprehensive procedures to deal with the delivery of services to our clients.

Anderco Consultants

Our strength lies in the diversity of our skills and past experiences, with the Anderco team having direct expertise across all industry sectors within Ireland. Anderco has an extensive panel of expert consultants nationwide and will travel throughout the country to deliver professional services to our clients

Anderco take pride in delivering an excellent service. We have the enthusiasm and the people to ensure that the quality of our consultancy is maintained at a consistently high level. In this respect, Anderco's consultants have vast experience in all the fundamental aspects of health and safety and are qualified in a specific field.

All consultants are members of IOSH and are committed to the process of continuing professional development (CPD). This ensures that clients benefit from their practical experience and expertise. This service helps our clients meet their legislative and regulatory requirements and helps them and to meet their organisations' particular needs and requirements.
