when know-how matters

Anderco – Meeting All Your Spill Control Requirements

At Anderco we aim to offer all of our customers a convenient, consolidated safety offering - a one-stop-shop capable of meeting all of your safety needs. To meet your spill control requirements, we offer a wide range of absorbent materials and spill response products:

- Chemical spill absorbents - for aggressive, chemical based spills, as well as non-aggressive leaks or spills.
- General purpose spill absorbents - for containment and clean-up of non-aggressive spills
- General purpose spill kits - for dealing with everyday spills in and around the workplace.
- Speciality spill kits - designed for chemical, mercury (hg), dry acids / bases and battery acid spills for all types of environment.
- Oil and marine spill absorbents - for hydrocarbon-based spills, large or small.
- Spill containment pallets - to contain all leaks, drips and spills.
- Accessories - spill identifiers to quickly indicate the possible presence of a variety of chemicals in unknown liquids.

A comprehensive range of services

As well as a full range of spill control products, Anderco offer:

- An onsite spill risk assessment and report.
- Product selection consultancy.
- Custom spill kits tailored to specific requirements.
- Spill kit servicing / on-site stock management.
- Bund inspection, servicing and refurbishment.
- Customised product training.

FREE spill control survey and report

Anderco's comprehensive spill control survey and report will provide your company with:

- Recommendations for costs savings.
- The benefits and reassurance of expert spill control advice.
- A full audit of all spill control products currently in use.
- The guarantee that your day-to-day operating processes meet the objectives of your company's environmental policies and the standards required under the Health & Safety at Work Act.
- Recommendations on the implementation of a convenient and cost effective managed stock system.

Your Anderco representative would be delighted with the opportunity to call to your offices to discuss your spill control and PPE requirements. In the meantime, if you have any queries or require additional information, please do not hesitate to contact your Anderco representative on 021 4351600 or 01 8089070 or email consultancy@anderco.eu.
